

ENVIRONMENTAL POLICY STATEMENT

Plowman Craven Limited is a highly skilled and successful business committed to the supply of accurate and beneficial measured information to its customers.

Plowman Craven believes that it has a responsibility to care for and protect the environment in which it operates. The organisation is fully committed to improving environmental performance across all of its UK business activities (i.e. our Head Office at Harpenden and the sites on which we operate within the UK).

We will:

- *Operate in compliance with all relevant environmental legislation and we will strive to use environmental best practice in all we do;*
- *Integrate the consideration of environmental concerns and impacts into our decision making and activities;*
- *Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner;*
- *Train, educate and inform our employees about environmental issues that may affect their work; minimise, re-use and recycle resources wherever possible, avoiding and discouraging the use of environmentally unfriendly products.*
- *Promote energy efficiency, by for example, turning off computers, lights and office equipment when not in use;*
- *Operate and maintain company vehicles with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.*
- *Strive to continually improve our environmental performance and prevent pollution by periodically reviewing our environmental policy in light of our current and planned future activities.*

To further demonstrate our commitment to the environment, the Company is certified by BSI as compliant with the requirements of the ENS ISO 14001:2015 standard (Certificate number EMS 552807). As part of the company Environmental Management System we actively maintain an Environmental Aspects Register and Environmental Library and working towards some specific objectives and targets as part of our Environmental Management Programme. The Company also has in place an Emergency Preparedness and Response plan in the event of an environmental emergency situation or accident.
